

# Absoft Adima Fact Sheet

## Package Introduction

Specifically built to meet the needs of UK Small & Medium Enterprise manufacturers, Absoft Adima is a pre-configured ERP solution

Truly a single system solution, Absoft Adima provides a single version of the truth – live on mobile, tablet, laptop and desktop

Available in cloud-based or on-premise variants Absoft Adima is based on SAP's latest version of its world class ERP offering S/4HANA

SAP S/4HANA is taking ERP into the digital age and Absoft Adima leverages that power to enhance performance on the shop floor, the top floor and to improve your bottom line

## Value

- Compress manufacturing cycle times by 15%
- Improve on-time delivery performance by 10%–20%
- Boost customer satisfaction by 10%–20%
- Reduce inventory levels by 5%–15%
