

# World Leading ERP - Made Affordable

## About Absoft

Absoft provide SAP solutions and consultancy services to upstream oil and gas, delivering tailored solutions and implementations to global Operators and Oilfield service companies across 40 countries since 1991.

## About Accepta

Accepta is the leading provider of accounting, salary and financial reporting services to the upstream oil and gas industry across the Norwegian Continental Shelf.

Accepta has highly qualified consultants with an in-depth knowledge of accounting issues, controller related tasks and tax-related issues within the oil and gas industry.

## Working together

Together, Absoft and Accepta provide unrivalled knowledge in provision of financial services using SAP, with combined oil and gas expertise spanning over 30 years.

\*Based on standard solution - scope available on request. Additional requirements can be delivered.

## Fully hosted SAP – JVB at fixed price\*

Are you looking for a state of the art ERP system that can not only support your business today but also in years to come?

Combining SAP, purpose-built hosted services and professional financial services ensures a robust solution with the potential and flexibility to develop in line with strategic organisational growth.

Implementing SAP as a template solution offers several advantages for exploration & production companies in upstream oil and gas. A rapid and effective implementation timeline, together with fixed pricing, are the most distinct advantages, but there are many more to consider:

- Accelerate period-end closings
- Flexibly perform reporting tasks based on data reconciled in real time
- Efficiently handle financial reporting, according to Norwegian GAAP / IFRS accounting principles
- Enable financial statements at a joint venture level
- Run parallel currencies in accounting

## Our Solution Offers:

### Financial Accounting

- AP – AR
- Bank Accounting
- Electronic Remittance
- Financial Statement
- Fixed Asset Accounting
- General Ledger

### Joint Venture Accounting

- Cash Call
- JVB
- JV Data Capture
- JV Master Data
- OLF Compliant
