

Absoft Adima Fact Sheet

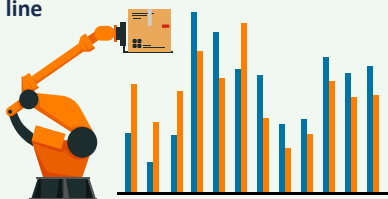

Package Introduction

Specifically built to meet the needs of UK Small & Medium Enterprise manufacturers, Absoft Adima is a pre-configured ERP solution

Truly a single system solution, Absoft Adima provides a single version of the truth – live on mobile, tablet, laptop and desktop

Available in cloud-based or on-premise variants Absoft Adima is based on SAP's latest version of its world class ERP offering S/4HANA

SAP S/4HANA is taking ERP into the digital age and Absoft Adima leverages that power to enhance performance on the shop floor, the top floor and to improve your bottom line

How Long to Implement?

Based on the pre-configured Absoft Adima template we layer in your organisations structure and make the system available for use in as little as 12 weeks

Week 1 - Commission

Week 1-2 - Design & Data Discovery

Week 2-6 - Build

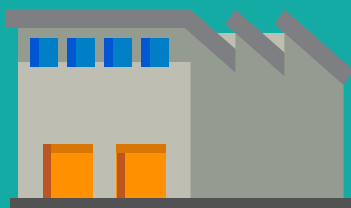

Week 7-11 - Test

Week 12 - Technical Go-Live
